

**B-VARC Board of Directors Meeting  
Minutes, March 6, 1992**

by Paula Holcombe, N5ULY  
Recording Secretary

The minutes of the last meeting were read and approved.

Because of the Special Events Station centered around the upcoming anniversary of our club, the board has been seeking information on the formation and, more specifically, the date of the first meeting. As a result the club has received some very helpful information from members which has been a tremendous help in reconstructing the history of the club as well as in planning for the station.

Plans for the Special Events Station are progressing smoothly. Operators are currently being scheduled for the event.

The sign up for the MS-150 is going well; however, additional volunteers are welcome and appreciated.

Plans for the B-VARC annual picnic were discussed. Because of other events taking place in October, it was recommended that the picnic take place over the 3rd or 4th weekend of the month. The Board settled on October 24th with the 31st as a potential rain date. A committee will be formed to coordinate those who wish to bring food, and the Board will be seeking volunteers to help during the event and possibly to make ice cream. Anyone wishing to volunteer may contact Doug Holley, KE5SR.
